BUDGET NARRATIVE FISCAL 2016-2017 BUDGET

We are presenting the final annual budget for fiscal year 2017, which is the first year of the 2017-2018 biennium. This budget was developed to meet specific priorities and targets guided by the mission and vision of the institution. The budget was developed through a shared governance effort, commissioned by President Hicswa, and comprised of faculty, staff and administration, budget managers, and the budget committee. Each division was presented with budget workbooks and reduction goals that aligned with the current funding percentage for their divisions or funds. Divisions were asked to review all expenditures, collect data, develop criteria and utilize benchmarking as a framework to determine budget recommendations. These priorities were strongly tempered by the downward trend in state appropriations and local levy revenue projections for the upcoming biennium and beyond.

In 2010 Wyoming Community College Commission (WCCC) developed and implemented a new funding model to replace the comparative model. The model utilizes a formula that is based on a fixed and variable cost allocation. Fixed costs are allocated based on historical data and starting in FY2017 the variable cost has been modified to allocate 25% of the variable portion of the allocation to a new weighted credit hour metric. Additionally, beginning in fiscal year 2018 and culminating in FY2020, a minimum of at least one performance metric and one placement metric, and over the same time period, the percentage of variable costs funding subject to these three metrics – progress, performance and placement – will gradually increase to 50 percent of the variable cost portion of the allocation. The remaining 50 percent of the variable cost allocation will still be allocated using enrollment (i.e. the participation metric). The application of all these metrics are implemented through the utilization of the funding formula model.

During the 2016 legislative session, HB80 effectively eliminated the one time only enrollment funding appropriation by permanently rolling it into the base budget allocation effective in the next biennium FY2019-FY2020. The governor provided a final enrollment growth appropriation but this amount was reduced from prior years. A substantial completion footnote from the last biennium expired as well. The elimination of the footnote resulted in Northwest College appropriations being reduced by approximately \$1.17 million dollars over the biennium. With the conclusion of the legislative session, the College was allocated \$1.6 million in reductions to our base state appropriations. In April 2016 the Governor called for 7.92% in additional to state agencies. The translated into \$2.5 million in cuts for the biennium in state aid.

In the fall of 2015, Northwest College and other colleges started working closely with county assessors to monitor valuation projections. Recent projections suggest the four mill tax levy biennium revenues will decline over \$10 million for the seven community college districts. Northwest College is currently estimated to lose \$1.8 million over the biennium. Revenue projections for one mill funds are also estimated to drop by \$460,000 over the biennium. After all final levies are provided the commission will recalculate the funding formula to reflect new local levy, final appropriation and recapture allocations.

Tuition revenue and enrollment declines have slowed but are projected to finish slightly down at \$85,000 for FY2016. Although applications are up overall, this seems to be a national trend and actual attendance is not tracking proportionate to applications. With this in mind, we have projected flat attendance, and utilized FY2016 actual enrollments to align revenue with enrollment category (in state, WUE, or out of state). The Wyoming Commission did approve increases for FY2017 at \$6.00 for in-state, \$9.00 for WUE, and \$18.00 for out of state students.

This combined with decreased course and mandatory fee revenue is estimated to provide approximately \$170,000 in net additional revenue.

Health insurance appropriations have been reduced but are still projected to be mostly funded as long as college staff remains the same or is reduced. Retirement appropriations are not fully funded and each college will have to absorb the funding shortfall. Northwest College will lose approximately \$60,000 for the biennium. This does not include the projected loss of reimbursement for the retirement shift from employer to employee. For FY17, Northwest College has budgeted to absorb this shift (approximately \$20,000) for our employees. The College will cover the cost and will be reviewed annually for continuation. WyIN funding is anticipated to be fully funded for FY2017 and FY2018 unless cuts exceed current reserves.

Overall, Northwest College is expected to see an overall reduction in state and local levy operating revenues of approximately \$4.6 million dollars for the next fiscal biennium - FY2017 and FY2018. This projection is based on available information as of June 28, 2016. Once local levy numbers are finalized in July, these numbers will be utilized to recalculate the state funding formula but changes will only be reflected in the recapture redistribution of funds for FY2017. Currently, Northwest College is projected to receive less than \$58,000 in recapture.

Current Funds

Current funds include unrestricted operating funds (including community service and continuing education), auxiliary funds, one-mill funds, and restricted current funds. Budgets are presented as balanced with strategic use of surplus balances transferred to reserves or prior carry over balances used for budgeted deficits. When comparing the size and strength of the college, in financial terms, with comparable institutions, these figures are the commonly accepted by NACUBO basis for such comparison.

Current fund revenues are subdivided into four categories of sources; state support (general and area specific support and ABE/GED/ESL), local revenue (four-mill, motor vehicle, and one-mill levy), institutional revenue (tuition, fees, and auxiliary revenues), and other revenue (gate receipts, investment income, misc. deposits, restricted revenue, and carryover). The percentages from each of these categories for the FY2017 budget are listed below:

Unrestricted Operating Fund

The unrestricted current operating fund represents the largest portion of the educational and general operational financial activities of the college. Its revenue is largely determined by the Funding Allocation Model of the WCCC, which establishes funding levels for the Wyoming community colleges in part on the basis variable or instructional cost per credit hour and fixed costs.

As a part of the current funds, operating fund revenues are also subdivided into four categories of sources; state support (general and area specific support and ABE/GED/ESL), local revenue (four-mill and motor vehicle), institutional revenue (tuition and fees), and other revenue (gate receipts, investment income, misc. deposits, restricted revenue, and carryover). The percentages from each of these categories for the FY2017 budget are listed below:

Unrestricted Revenue

We are anticipating a decrease in our block State appropriation of approximately \$1,600,000 for FY2017. We will not budget for recalibration/redistribution monies as they are small and could potentially result in a reversion payment into the state once finally calculations are completed by the state. In addition to our block State appropriation we receive additional State appropriations on a reimbursement basis for health insurance premiums (approximately \$2.7 million) and continuing this year, a special State supplemental allocation for three nursing faculty positions (WyIN) (\$242,000).

Local tax revenues are projected to be approximately \$2.56 million for the 4-mill levy and \$640,000 for the 1-mill levy for FY2017. The County has predicted a \$200 million dollar reduction in county valuation. The county will continue to watch revenue projections closely as they are expected to continue to decrease in FY18. The College will continue to work closely with the County to stay abreast of all projections.

Projected institutional revenues from tuition are anticipated to increase by about \$200,000. We are watching enrollment numbers closely and have decided to establish baseline projections at our current levels. The increase is a reflection of the inclusion of the tuition increase approved by the WCCC for FY2017 at \$6 per credit hour. Continued analysis of all course and student fees is planned for FY2017.

Restricted Revenue

Restricted revenues reflect projections for grants and other fund revenue that we are currently holding or for which we have already received authorization, such as Pell, SEOG and Federal Work study funds. Most competitive federal grant award years do not start until August or September and will be added in our first quarter budget adjustments.

Unrestricted Operating Salary & Benefits and Early Retirement for Staff (VERP)

Due to enrollment levels and large reductions in state and local funding, no salary increases have been budgeted for the FY2017 budget. Additionally, due to the large budgetary reductions and a desire to maintain current levels of service, the board of trustees has elected not to fund the voluntary early retirement plan for staff positions.

Auxiliary Enterprises

Residence hall rooms and Trapper Village West apartment rates were recommended, approved, and will be increased by 6% for FY2017. Food rates were increased by various amounts per meal plan to offset anticipated inflationary increases and stabilize meal plan shifts due to shifts in enrollments. All Auxiliary Fund areas were budgeted to maximize revenues and still remain affordable to our students. The Learning and Care Center will be open to the public starting July 1st to serve our community like other centers around the state. Current center rates will be increased to align with regional rates. Support lines for FY2017 have been reduced and will continue to be reviewed for potential elimination. The Learning and Care Center support was reduced by \$75,000, Fitness Center and Print services were eliminated, Livestock was reduced by \$5,000 and other lines took 25% reductions (music camp, gallery, magazine, cable, and writers series). A full review of all auxiliaries has been completed and budget changes have been made. Additional staffing changes are under review in order to address Fair Labor Standards Act changes. Carry over funds have been committed to Trapper Village West to address remodeling improvements. Finally, Student Senate fees will be increased by \$4.00 per credit with a cap at 15 credits. This will align revenues with expenditures after many years of inflationary decay. Students supported the increase to cover those services and activities that are important to the student body.

Additional Budget Information

This budget for the fiscal year of 2016-2017 follows the format based upon National Association of College and University Business Officers (NACUBO) guidelines.

These forms are organized in series of three reports each, such as (01, 02, 03), (21, 22, 23) and (31, 32, 33) and so on. The first number of the series indicates the fund type thus, the first series of 0 illustrates a summary of all of the other report series excluding plant fund and endowments, series 2 illustrates unrestricted operating fund with community and continuing education included, series 3 illustrates auxiliary services, series 4 illustrates the optional one mill, series 6 illustrates restricted current funds. The ending number of "1" indicates a summary of revenue and expenditures, an ending number of "2" indicates revenues, and an ending number of "3" indicates expenditures. The final series that rounds out the 0 series (04, 05, 06,

07, 08, and 09) illustrates the plant and endowment funds which are looked at separately from all of the other funds.

The columns shown on the various pages include information to be used in referencing the proposed fiscal year 2017 budget to historical budget information. All historic information is subject to change during the annual year end close process and which includes evaluating the College's reserves to ensure compliance with Wyoming State Statute. The columns on each budgetary statement, from right to left, represent:

1. Tentative 2017 fiscal year budget, beginning July 1, 2016 and ending June 30, 2017.
2. Prior 2016 fiscal year budget, including all board-approved adjustments prior to the year-end close adjustments which could result in an additional budget adjustments which would require Board of Trustees approval. Budget adjustments are normally made on a quarterly basis. The most recent budget adjustments were approved by the Board at their March 2016 board meeting.
3. Prior 2016 fiscal year budget, as originally adopted by the Board of Trustees, July 13, 2015.
4. Year to Date Actual Revenues and Expenses for the 2016 fiscal year. These balances are prior to any year end close adjustments.
5. Final, Audited Revenues and Expenses for the 2015 fiscal year.

In addition to the format based upon NACUBO guidelines, we have included Supplemental Schedules to provide additional information for the users of the College's Budget. These are designed to provide the user with additional information regarding decisions made to transfer expenditures between the College's Divisions and Funds, summary of reductions by divisions, summary of one time only use of college reserves to fund fiscal year 2017 and a summary of reductions by select revenue and expense categories. The items described above are included in the Schedule of Transfers Between Divisions, Summary of Budget Reductions, Reserve Utilization by Division and Budget Reductions by Category and Fund.
