Surgical Technician I and II
The Surgical Technician courses provide students with the knowledge to perform general functions in and around the operating room to assist the surgeon and nurses. Offered in a hybrid format, students complete online course work, and participate in face-to-face labs and clinical experiences.
Prerequisites: American Heart Association BLS certification, and High School Diploma.
Primary Location: Cody Center

Estimated Program Costs*
Surgical Tech I...$800.00  Surgical Tech II...$800.00
(Cost Includes Manuals and Lab Kits)

Certified Nurse Assistant II
CNA II is designed to provide the student with basic principles and skills necessary to provide client/resident care in the healthcare setting within the scope of practice of the CNA II. Special emphasis is placed on the principles of delegation and acquisition of appropriate skills. Offered in a hybrid format, students complete online course work, and participate in face-to-face labs and clinical experiences. Upon successful completion of the course, students may apply for a CNA II license from the Wyoming State Board of Nursing.
Prerequisites: Current CNA Certification
Primary Location: Powell Main Campus

Estimated Program Costs*
Approximately $200.00
(Contact the Center for Training and Development for current pricing)

Paramedic A.A.S. - Proposed to Begin Fall 2020
The Associate of Applied Science degree in Emergency Medical Services-Paramedic program includes 65 credit hours that comprehensively prepares the Emergency Medical Technicians to move to the next level of skill and career development and become a paramedic. The program will be delivered in a hybrid fashion with didactic content occurring online, skill practice labs that are scheduled face-to-face in a block-fashion, and clinical experiences in emergency settings. Upon successful completion of the program, students will be prepared to sit for the national exam to become a paramedic. The program also provides the prerequisites required to continue on for a Bachelor of Science in Paramedicine, Community Paramedic, or potentially bridge to an RN program. In addition, at the end of the program, paramedic graduates will have their certification in Advanced Wilderness Life Support to function as a wilderness paramedic and able to function proficiently in expanded roles available in critical care areas such as the Emergency Room

Prerequisites: An EMT-A certification is required for registration in the program.

Primary Location: Cody Center

Certified Medical Assistant
As part of the NWC Certified Medical Assistant (CMA) Program, students prepare to join the medical workforce as an essential part of the clinical office team. Taught in a blended format, the program has online coursework, classroom lecture, lab, and clinical experiences at various facilities in the NWC Service Area. Upon successful completion of the core courses (MEDA 1500 & 1540), students will be prepared to sit for the Certified Clinical Medical Assistant (CCMA) exam.

Primary Location: Cody Center
